

SAUSAL WINERY

2008 Sangiovese Alexander Valley

Our Sangiovese, is made from 100% estate grown grapes. This varietal comes to us from the Tuscan region of Italy. Although it has been used for hundreds of years in Italian wines; most commonly associated with Chianti, Sangiovese is relatively new to the California wine industry.

This delicious wine is ready to drink now, but a few years in the cellar will enhance the spicy characteristics known to this varietal. Enjoy with light pasta, pork or poultry.

Cases Produced: 350

Technical Description

◆ Grape:	100% Estate Grown Sangiovese
◆ Alcohol:	14.5%
◆ Total Acidity:	0.64
◆ pH:	3.74
